Building Update: George Abell

- Primary contacts for the building improvements are: George B, Roger A, Anne F, Joyce McHenry.
- Completed: trees have been removed, canopies raised, 7” cement steps installed, natural area created around the ‘great oak’ to protect the roots.
- Phase II to include: clearing the bank and swell areas at the top and bottom of grade, install new down gutter spout , install stair railing, install new ground cover, install privacy shade on new door, lift sagging on existing doors.
- Other building to dos: install lights along walk ways, improve reflectors, investigate security on all doors via sensor which would be tied to front door to insure all doors are locked when leaving building.
- Anne Fitzgibbon reported that a group of members helped rake debris from around building.
- Donna Goldstein asked about a security gate at the entrance off Guess Road; response was that that was not practical due to the numerous maintenance crews coming onto the property.
